**Introduction of Mobile Service in Rural Areas**

1745. SHRI YADLAPATI VENKAT RAO: Will the Minister of COMMUNICATIONS be pleased to state:

(a) the action taken to introduce mobile phones in all the States especially in rural areas; and

(b) the target set for this purpose?

THE MINISTER OF STATE IN THE MINISTRY OF COMMUNICATIONS (SHRI TAPAN SIKDAR): (a) and (b) Sir, the Government have granted licences for Cellular Mobile Telephone Service (CMTS), for Metro City Service Areas and Telecom Circle Service Areas, to private operators as well as to the public sector operators, Mahanagar Telephone Nigam Limited (MTNL) and Bharat Sanchar Nigam Limited (BSNL), as per details in the Statement (*See below*). Further process has been started for inducting one more private operator of CMTS in most of the Service Areas, for which bids have been received. After the introduction of additional operator, there will be three private operators and one Government Operator in most of the Service Areas in the country.

The terms and conditions of the licences, *inter-alia*, provide that atleast 10% of the District Headquarters will be covered in the first year and 50% of the District Headquarters will be covered within three years of effective date of Licence. The licensees have also been permitted to cover any other town in a District in lieu of the District Headquarters. The choice of District Headquarters/ towns to be covered and further expansion beyond 50% District Headquarters/ towns lies with the Licensee companies depending on their business decision. There is no requirement of mandatory coverage of rural areas as per the licences granted. With multiple operators in each Service Area, it is expected that all the Licensees will cover more and more areas including semi-urban and rural areas.

BSNL has been given CMTS licence covering the entire country except for Delhi and Mumbai Metro City Service areas. It has proposed to cover all the district Headquarters, important Pilgrimage Centres, Major Highways and
